

VASANTH P

SOFTWARE ENGINEER

Chennai, Tamil Nadu • +91 8524000761 • vasanthguru.21082003@gmail.com

Portfolio: vasanth-p.github.io/VasanthPortfolio/

PROFESSIONAL SUMMARY

Results-driven Software Engineer with hands-on experience in developing, integrating, and supporting enterprise applications using Java, PostgreSQL, SQL, REST APIs, XML, JSON, and NewgenONE (OmniApp). Skilled in backend development, enterprise workflow automation, API integration, and production support. Passionate about delivering scalable solutions, optimizing business processes, and resolving complex production issues while collaborating with cross-functional and client-facing teams.

PROFESSIONAL EXPERIENCE

Software Engineer | Newgen Software Technologies Ltd. | 2025 – Present

- Develop and maintain enterprise applications using Java and the NewgenONE platform (OmniApp).
- Design, develop, and integrate REST APIs with enterprise applications and external systems.
- Develop and enhance enterprise business workflows based on functional and business requirements.
- Configure XML and JSON request/response payloads for API integrations and external system communication.
- Work extensively with PostgreSQL and SQL for database development and optimization.
- Analyze, troubleshoot, and resolve production issues through root cause analysis.
- Support production deployments, release activities, and post-deployment validation.
- Collaborate with client teams, business analysts, and cross-functional teams to deliver business solutions.
- Perform application debugging, testing, and feature enhancements to improve system reliability and performance.
- Ensure application stability, performance, and compliance with project standards.

EDUCATION

B.E. (Hons.) – Computer Science Engineering | Velammal College of Engg. & Technology | 2025 | CGPA: 8.5/10
HSC | Velammal Matric Hr. Sec. School | 2021 | 87%
SSLC | Modern Matric School | 2019 | 84%

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Web Technologies: HTML, CSS

Database: PostgreSQL

Enterprise Platforms: NewgenONE, OmniApp, Enterprise Workflow Automation

Tools & IDEs: Postman, Eclipse, Visual Studio Code, Git, GitHub, GitHub Copilot, JBoss, Swagger

PROFESSIONAL ACHIEVEMENTS

- **Received the High Five Award** for outstanding performance, technical excellence, rapid issue resolution, and significant contributions to enterprise project delivery.
- **Ranked as the Top Performer** across onboarding and technical training programs, securing the highest scores in multiple technical learning modules.
- **Recognized by senior leadership** (DGM) with appreciation and rewards for exceptional technical performance, continuous learning, and outstanding training achievements.
- **Selected for early client-side engagement** based on strong technical capability, project ownership, and consistent performance as a junior software engineer.
- **Contributed to the successful delivery of enterprise solutions** by developing workflow modules, REST API integrations, and production enhancements across multiple business applications.

PROJECTS

Enterprise Application Development

Tech Stack: Java, SQL, PostgreSQL, REST APIs, XML, JSON, NewgenONE (OmniApp)

- Contributed to the design, development, and enhancement of enterprise applications across multiple business domains, including Loan Origination, Committee Workflow, Gold Loan, Agriculture Loan and Digital Business Process Automation.
- Developed and integrated REST APIs, configured XML/JSON payloads, and implemented enterprise workflows using the NewgenONE (OmniApp) platform.
- Developed and optimized PostgreSQL queries and database operations while providing production support, deployment assistance, and root cause analysis.

Car Rental System

Tech Stack: Java, MySQL, JDBC

- Developed a Java-based vehicle rental management system featuring user registration, booking, payment processing, and database management using JDBC and MySQL.
- Implemented CRUD operations using JDBC and MySQL following object-oriented design principles.

Copy Paste Download

Tech Stack: HTML, CSS, Bootstrap, JavaScript

- Developed a responsive web application that enables users to save clipboard and drag-and-drop images directly to their local system with client-side validation.

GitHub: [vasanth-p.github.io/copy-paste-download/](https://github.com/vasanth-p/copy-paste-download/)

Personal Portfolio

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a responsive portfolio website showcasing technical skills, enterprise projects, certifications, and achievements.

CERTIFICATIONS & RECOGNITION

- **High Five Award** – Newgen Software Technologies | Recognized for outstanding performance, technical excellence, and rapid issue resolution.
- **Java (Gold Level)** – HackerRank | June 2023
- **Java Programming & SQL** – SkillRack | August 2024
- **Privacy and Security in Online Social Media (Elite)** – NPTEL | Jul 2023 – Oct 2023
- **Top 5** – Yukthi: Innovation Maker Challenge | Google Developer Groups Madurai & Startup Tamil Nadu | Oct 2023
- **Runner-up** – My Idea My India | Madurai Productivity Council (MPC) | Feb 2024
- **Finalist** – Madurai Hackathon | Madurai Tech Community | Aug 2023
- **1st Place** – Interdepartmental Coding Competition | Feb 2023
